THURSDAY, NOVEMBER 10th, 1887.

Ashland is soon to have a stove foundry.

Another Western Express train was robbed last week.

The Treasury department reports \$998,600,000 cash in the Treasury.

Jenny Lind, the great Swedish singer, died last week, at the age of sixty-six years.

DeLesseps expects to have ships floating through his Panama canal in about two years.

Gen. F. C. Latrobe was inaugurated as Mayor of Baltimore for the fifth time yesterday.

There is but one known survivor of the Vernon, which was lost in Lake Michigan last week.

A subscription fund is being raised in Louisville for the erection of a tabernacle in which the Rev. D. L. Moody will soon hold a series of meetings.

The citizens of New York have called a meeting for Thursday next to take steps looking to a centennial celebration in 1889 of the inauguration of George Washington as first President of the United States.

J. R. Agee was hanged at Lexington last Friday for the murder of his brother-in-law, James Faulkner, in September, 1886. All efforts for new trials and Executive clemency failed.

E. L. Harper, of Fidelity Bank notoriety, has been removed from the jail at Dayton to the Cincinnati jail. The trial has been set for Nov. 29th. His bail is fixed at \$200,000.

At the special election held in Bath county last Saturday the proposition to subscribe \$150,000 to the capital stock of the Paris, Georgetown and Frankfort railroad was successful by a majority of nearly 800 votes.

It is not probable that Gov. Oglesby, of Illinois, will in any way interfere with the case of the Anarchists, though petitions for clemency are being poured in upon him. The Socialist element is a dangerous one and should, by all means be suppressed by giving its criminal leaders the extent of the law.

Gov. Buskner has issued his proclamation recommending that the people of Kentucky observe Thursday, November 24, the day set apart by the President, "in the manner in which each individual may deem most fitting, to acknowledge the bounties which have been extended by the beneficence of the Supreme Being."

Mrs. Lucy Parsons, wife of the Anarchist, created a sensation in Chicago one day last week by selling pamphlets entitled, "Was it a Fair Trial?" She drew such a crowd around her that the street was completely blocked, and this police compelled her to move on. She sold in a few hours 5,000 copies at 5 cents each.

A compliment has been paid Mr. Carlisle by the great men of Georgia. They held a meeting at Atlanta Saturday and unanimously extended an invitation to him to visit Georgia and deliver an address on tariff reform. A committee on invitation consisting of fifteen gentlemen, with Gov. Gordon as Chairman, was appointed to convey to Mr. Carlisle the action of the meeting.

The seven condemned Anarchists were refused the request for a writ of error by the United States Supreme Court, and they will be hanged to-morrow, provided a commutation of sentence is not granted by the Governor. Spies, Fielden and Schwab have signed petitions humbly begging for a commutation, but the other four have written letters to the Governor stating that they would not accept an exchange of sentence. Fifty-four policemen, armed with Winchester rifles, are quartered in the jail.

At Rayenna, O., last week "Blunk" Morgan, on trial for the murder of Detective Hurligan, bet a cigar with his attorney that the verdict of the jury would be "guilty of murder in the first degree," and Morgan won, smiling grimly at his luck. Morgan was one of the Cleveland "fur thieves," and committed the murder while attempting to rescue some of his partners from the officers of the law.

Charles Brownfield, of Louisville, a young man of good character, cut the throats of his sleeping wife, child and brother-in-law last Thursday night, after which he hanged himself. He left a note, written after the murder, in which he stated that he killed his wife and baby because he was tired of life and did not want them left in the world penniless, with no one to care for them. He said that he killed his brother-in-law because he did not think he was fit to live.

The national congress of farmers, comprising delegates appointed by the Governors of the several States, will assemble in Chicago, November 10, and continue in session during three days. The mission of this congress is to prepare for concerted action in securing legislation favorable to agriculture in such matters as can be controlled or influenced by general legislation. The various combinations, syndicates and trusts have been formed, and are in process of formation, all looking forward to the laying of increased burdens upon the weaker and unprotected classes, call for concerted action on all hands. Particularly is this true as regards the farming industries of the country.

A suspicious looking small box was received through the mail by Chief Justice Waite soon after the decision in the Anarchist cases was rendered.

It contained powder and a jet of black fluid, so arranged that the raising of the lid would have exploded it. The box was made of pasteboard, however, and a post-office employee stamped it on one side with such force as to disconnect some of the machinery, and thus an explosion was prevented.

LATER.—It has lately been discovered that the alleged effort referred to above was only an attempt on the part of a young fellow to secure money under false pretenses from several newspaper men. The prepared box was found to be perfectly harmless—except to those who prepared it.

The Eastern Kentucky Land company of Mt. Sterling has purchased Cumberland Gap and all the land in the immediate vicinity surrounding it. As the Gap in the Cumberland range is the objective point of a number of proposed railroads, the investment is likely to prove a good one.—Courier-Journal.

It is reported from Washington that Mr. W. C. P. Breckinridge, of Kentucky, will be Chairman of the Committee on Ways and Means in the event of Mr. Carlisle's re-election to the Speakership. As Mr. Thob's contest is not based upon any practical proof, Mr. Carlisle's retention of the Speaker's gavel may be set down as a certainty. Breckinridge is a devoted follower of Carlisle's, and can be expected to reflect his views as Chairman of the Ways and Means Committee.—Louisville Commercial.

The Frankfort Capital thus speaks of Mr. K. F. Prichard: "Col. Keene F. Prichard, of Catlettsburg, one of Kentucky's most eminent lawyers, died at his home on Saturday last of paralysis of the brain. He was fifty-five years old, an ex-member of the Senate, and popular with everybody. He was an earnest and eloquent speaker and a knightly gentleman, who will be missed from among us. He leaves a wife, three children and a host of friends to mourn his death. Peace to his ashes."

Kentucky's Development.

Already the development has begun. To-day there is more miles of railroad under contract and in course of construction in Kentucky than in any other State in the Union. Soon every nook and corner of our territory will be penetrated by this iron advance agent of progress, and then—then Kentucky will take the rank in the column of States which she is naturally entitled to. Young man, and old man too, for Kentucky's era of prosperity will come in your day, stick to Kentucky. She has been a little slow about it, but she will make ample atonement to all who will stand by her.—Shelby Sentinel.

The E. K. Railway.

The Eastern Kentucky Railway is a short road extending from Riverton, on the Ohio river, through Greenup county and a part of Carter to the Eastern Kentucky Junction, where it crosses the Chesapeake and Ohio Railroad. The present Southern terminus of the E. K. Railway is at Willard, Carter county, which is about two miles from the Junction. The statement is made that the road is to be extended to Bristol, Tenn. A company has for some time been engaged in building a road, known as the Imboden road, from Bristol, through Virginia to Big Stone Gap on the Kentucky line. The Eastern Kentucky company has bought the forty miles of new road, with all the lands, ores, minerals and other property belonging to the Imboden road. The two companies have been consolidated, and Vice President, Bates, of the Eastern Kentucky, has been made President of the new Company. He has gone to Bristol to push the work there. Operations will commence in Kentucky in the spring. The extension through Kentucky, from Willard, will probably be up the Big Sandy valley, though it may be made up the Upper Licking valley.—Courier-Journal.

Mr. J. H. Marcum has been mentioned as the next Democratic candidate for State Treasurer. Mr. Marcum made many friends, among members of both the principal political parties, while serving as Sergeant-at-Arms of the Senate last winter, and as he is very popular wherever known would make a strong candidate. We hope he will receive the nomination.—Ceredo (W. Va.) Advance.

High License.

[Owensboro Messenger.] High license in Minnesota is rendering the same service to the cause of order and sobriety that it has done in other in other places where it has been fairly tried. There has been a falling off of about a third in the number of saloons in the cities where it has gone into operation, most of those which have closed being of the class which was responsible for a large share of crime which whiskey drinking has caused in the communities in which they are situated. High license is the true solution of the liquor trouble. The prohibition fanatics and a number of short-sighted Louisville liquor men joined hands in the last Kentucky Legislature and defeated a high license bill, which, after the revenue bill, was the best measure proposed during the whole session. But a high license bill will inevitably be passed during the session of the coming winter.

The following account of an old mule belonging to Mrs. Nancy Honaker, of Floyd county, is taken from a correspondence to the Standard Journal:

"The old mule has quite an extensive history before and since the late war, but his war record is said to be especially interesting. Mrs. Honaker gives her age at seventy-three years, and the mule, she says—and so do other old inhabitants here—is very well known to have been a resident of this State a little over sixty years, and how long he resided in Old Virginia before he moved here no one knows. I have often since I have been at this place met Aunt Nancy riding out on the mule. Once she went to where her son-in-law, Mr. Loar, was getting out timber, eighteen miles away, over these rough mountain regions. The old animal also does good service as a buggy mule, and I believe from the get-up-and-go-along there is in him that he will be a useful mule at the close of Cleveland's second term as President of the United States."

In Brief, and to the Point. Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics. But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy. Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

THEIR BUSINESS BOOMING. Probably no one thing has caused such a general revival of trade at K. F. Vinson's Drug Store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup, and all throat and lung diseases quickly cured. You can test it by getting this bottle free, large size \$1. Every bottle warranted.

ROYAL BAKING POWDER

Teacher's Association meets at Hood to-morrow—Friday. We learn that preparation has been made to entertain all who may come. Superintendent McClure and Dr. Wroten will be there, the latter to deliver his popular lecture on Health and Disease.

Frequently accidents occur in the household which cause burns, sprains and bruises; for use in such cases Dr. J. H. McLean's Volcanic Oil Liniment has for many years been the constant favorite family remedy. For sale by Freese & Norris.

At a recent meeting of the Board of Education it was resolved to admit pupils living out of the district, by their paying the usual rates of tuition. This will be welcome news doubtless, to many young ladies and gentlemen who desire to fit themselves for teaching, and who have not the means for attending school away from home. The school will shortly be fitted with new desks, and every effort will be made to render pupils comfortable. For terms apply to the Board of Education or Dr. Wroten.

Western Botanic Chosen Specifics.

With every advance of civilization into the West, a new demand is created for Hostetter's Stomach Bitters. Newly peopled regions are frequently less salubrious than older settled localities, on account of the miasma which rises from recently cleared land, particularly along the banks of rivers that are subject to freshets. The agricultural or mining emigrant soon learns, when he does not already know, that the Bitters afford the only safe protection against malaria, and those disorders of the stomach, liver and bowels to which climate change, exposure, and unaccustomed or unhealthy water or diet subject him. Consequently, he places an estimate upon this great household specific and preventive commensurate with its intrinsic merits, and is careful to keep on hand a restorative and promoter of health, and a remedy to be relied upon in time of need.

Burned to Death.

Mrs. Giles Roe, living in Fort Gay, W. Va., our neighboring town, was burned to death this morning. She was just recovering from a spell of sickness and was very weak. There were only some small children at the house at the time of the sad accident and it is not known how it happened, but it is supposed that she fainted and fell into the fire, which was in a large wood-fire place. She died within two minutes after assistance reached her.

Children often need some safe cathartic and tonic to avert approaching sickness or to relieve colic, headache, sick stomach, indigestion, dysentery and the complaints incident to childhood. Let the children take Simmons' Liver Regulator and keep well. It is purely vegetable, not unpleasant to take and safe to take alone or in connection with other medicine. The Genuine has our Trade Mark "Z" in red on front of wrapper.

J. H. ZELIN & Co., Philadelphia, Pa.

A fire started in R. J. Frichard's grocery store about one o'clock to-day, but was soon extinguished. The fire was caused by a deflection of the gas, and but for the damp condition of the roof would probably have resulted very disastrously to the town. Brick flues only should be allowed to be used in this town.

You will have no use for spectacles if you use Dr. J. H. McLean's Strengthening Eye Salve; it removes the film and scum which accumulates on the eye balls, subdues inflammation, cools and soothes the irritated nerves, strengthens weak and failing sight. 25c a box. For sale by Freese & Norris.

BRACE UP.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which give for their ill-effects very cheap, bad whiskey, and which stimulate you for an hour and then leave you in a worse condition than before. What you want is an alternative that will purify your blood, strengthen your liver and bowels, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at R. P. Vison's drug store.

EDMOND'S BRANCH.

Miss Rebecca Nolen, of Tennessee, is visiting friends and relatives here.

Flux is still raging. William Hughes and Mrs. Nancy Bentley are still suffering from the disease.

The public schools are prospering nicely. G. B. Carter, teacher at Cooksey school house, shows up the best attendance.

The Texas fever is raging throughout this vicinity. Mr. M. B. Taylor is selling out preparatory to moving at an early day.

A spelling match will be conducted by Geo. B. Carter at the school house at this place on Saturday night, the 12th inst. All are invited to attend, and good behavior is earnestly requested.

COUNTRY GREENHORN.

Give them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery, it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the fancy names of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Dr. Scherer's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if every-thing else has failed you, you may depend upon this for certain.

THE ELECTION.

New York and Old Virginia Handsomely Democratic.

Ohio and Massachusetts go Republican, of course.

Fred Grant Gloriously Defeated.

The Democratic victory in New York was a grand one, and places the re-nomination and re-election of President Cleveland beyond a doubt. The plurality is about 15,000 or 20,000. The defeat of Fred Grant for Secretary of State was a surprise to his friends. Blaine's boom is buried.

Old Virginia elected a Legislature that will retire Riddleberger from the Senate and place in his stead a good Democrat.

The Democrats gained in Pennsylvania and lost in New Jersey.

In Massachusetts the Republican State Ticket was elected.

The Democratic candidate for Governor is thought to be elected in Iowa.

The Democratic ticket is elected in Maryland.
